Community Member Spotlights

Every day across the country and beyond, there are professionals working in the legal aid non-profit community whose roles cross over into the legal tech area. These roles include IT professionals, accidental techies, legal practitioners, legal aid management, and more. We want to introduce our members to people that are working in the trenches getting things done so that they feel that community spirit and know that they are not alone.

If you would like to be featured in a spotlight or nominate someone else to be featured, please fill out our [form](#).
