

Case Management System Review and Rating

List of CMS we are reviewing:

PRIME OFFICE 16

Prime Office uses Microsoft SQL server to store data and Microsoft Office Access as a source of forms, reports, queries and menus. It is the traditional Prime that you are used to, but with expanded features. If you ran Prime in the past, all your custom queries, reports, forms and code can be used with little or no modification. Prime 16 also uses more of the power of SQL Server.
