

# When to Test - Website Usability Testing Guide

## When to Test - Beginning, Middle and End

Image not found or type unknown

Usability testing is a priority when launching a new project, and it is vital to test your interface at each level of the design process.

You should conduct user testing when:

1. Creating or redesigning a site;
2. Changing the goals of your site (i.e., adding donation capacity to your site);
3. Adding new content, tools, or functionality to your site;
4. Changing or adding navigation elements;
5. Conducting annual evaluations of your agency;
