# Technology Initiative Grant Data

LSNTAP has partnered with the Legal Services Corporation (LSC) to provide information on the technology projects undertaken through funds provided by grants under the Technology Initiative Grant (TIG), Technology Improvement Project (TIP), and Sustainability Enhacement and Adoption (SEA) grant programs.

The data can be filtered and sorted using the tools below. It may be helpful to expand the table using the "View Larger Version" icon at the bottom of the Airtable display. If you need assistance using the Airtable tools, there is a link to step by step directions at the bottom of the page.

Some helpful information:

- The Grant ID is the Assigned Grant # (if known). If not known, we have assigned a number which includes the year granted followed by a hyphen and a number (ex. 23-6) with the assigned number being in the order we identified the information.
- For all years, the first 2 numerals represent the final two numerals of the year awarded. For example, 19001 would be the first grant awarded in 2019.

- Beginning in 2021, the grant id is composed of a prefix made of the two digit year followed by a letter (G, T, or A) and a 5 digit number which represents the order in which the grant was funded. Please note that the 5 digit number is duplicated ineach of the grant types so the prefix is important.
    - The letters in the prefix represent the following:
        - G=Technology Inititiative Grant (TIG)
        - T=Technology Improvement Project (TIP)
        - A=Sustainability Enhancement and Adoption (SEA)
