AI & Legal Information Database

As the use of generative artificial intelligence (AI) continues to grow, court cases, attorney guidance, judicial opinions, and state bar ruminations are abounding. Opinions on whether lawyers should use AI in their work will flourish. As these come to our attention, we will add them to this database and we hope this will become a great roundup of materials.

For best results when viewing the resources, click on the link at the bottom right corner to "View Larger Version" and filter by state, organization, or type of resource.

And if you know of any resource that we should include, please notify us by submitting using [our form](#).

Step by step directions about using the embedded airtable are available in the pdf below.
