

# Member Spotlight: Ryan Levels

Today, we are spotlighting community member Ryan Levels. Ryan is the Data and Evaluation Manager at Community Legal Aid and has lots of experience in mobile app development and software engineering. Ryan is currently pursuing a master's degree in data science and is interested in machine learning and artificial intelligence. He is working on transitioning to legal server, data reports, and data visualizations.

In his free time Ryan loves coaching and playing basketball, making music, and keeping up with technology. He considers these three of the things that he could do daily for the rest of his life, and still enjoy them immensely.
